New York Office, 225 Fifth Avenue (Brunswick Building), Room 404
G. A. MENET, Representative.

FRIDAY, OCTOBER 8, 1909.

William M. Ivins who was the Republican candidate for Mayor of New York city four years ago against McClellan and Hearst, now speaks in the highest terms of the latter, doing so before the Independence league gathering which nominated Hearst for Mayor, Wednesday night. New York city politics are always peculiar—never more so than this year.

No less than eighteen states have no highway commission, make no annual appropriation for road construction or maintenance—in fact, have no system of state roads. These states are Tennessee, Georgia, South Carolina, Nevada, Wyoming, Kansas, Kentucky, Florida, Mississippi, North and South Dakota, Montana, Alabama, Indiana, Texas, Wisconsin, Oklahoma and Nebraska.

The colored citizens of Hartford are preparing to present a loving cup to Senator Bulkeley, in grateful acknowledgment of his position upon the Brownsville. They should not forget, however, that Senator Foraker of Ohio was the leading champion of the cause of the colored soldiers so summarily expelled from the army by President Roosevelt. In that matter, Bulkeley was merely Foraker's "me too."

Fine Para rubber has advanced from 67 cents a pound in February, 1908, to \$2.15, the highest on record, and there is a scant supply at even that price. It is from this rubber that the best grades of automobile tires are made, and the leading manufacturers have already advanced their prices, with prospects of further advances between now and spring. Automobiles is thus likely to become much more costly, unless inventors come forward with some practicable substitute for rubber.

John R. Walsh, the Chicago financier who seems likely to pass some years in prison for "fraudulent banking," began life as a newsboy, and when the associated banks of Chicago assumed the indebtedness to depositors of the Chicago National and other Walsh banks, the securities taken over included: \$2,000,000 of bonds of Illinois Southern railway, nearly \$1,000,000 of bonds of the Chicago Southern railway, over \$2,000,000 of the Southern Indiana railway, \$1,400,000 of Illinois Southern stock, the Bedford stone quarries and other items which brought the total to \$14,000,000.

Diamond fields have been found in Arkansas, said by the Arkansas Gazette to be "the most remarkable ever known." They are located in Pike county and though they are as yet undeveloped, about 100 very fine stones have already been washed out by hand. A corporation has secured control of nearly the whole field and is about to install the necessary machinery. Experts who have investigated the fields, say that Pike county "is the only place outside of South Africa where diamonds have been found in peridotite" which is said to be "the true geological matrix in which diamonds of the first water are found." It remains to be seen, however, whether these fields will produce enough stones to materially influence the diamond market which is at present controlled by a combination of the South African producers.

In his address at the recent conference of the International Tax association, Allen R. Foote, its president, presented a strong argument against the Federal corporate income tax. He held that it was an usurpation of the State's power, perpetrated without the consent of the people. "A direct and unprecedented interference with the taxation system of every State," he called it. He showed by tabular statements that revenue in the New England States is largely obtained by taxation of corporations—from 72.71 per cent. in New Hampshire to 85.54 per cent. in Connecticut. Is any, Mr. Foote asks, "so credulous as to suppose that the Federal government can impose additional rates upon them without decreasing their ability to pay State taxes and without making it certain that rates and charges must be increased to provide the money required to pay the tax? In concluding his address, Mr. Foote uttered a very significant warning.

It is the sovereign prerogative of the several states to assign to the Federal Government the subjects of taxation from which it may derive its revenue; to specify the purposes for which it may exercise the power of taxation; to place a limit upon its exercise of this power and to require an accounting for its use.

If the states permit themselves to be deprived of this power "through

executive action, through legislation and through judicial construction and interpretation of law to increase the power of the Federal Government, they will demonstrate their impotence; they will be stripped of their sovereign powers, one by one, until they lose their sovereign identity.

ROWE NO LONGER TO HEAD GROWERS

New Haven Dealer Te'Is Connecticut Association He Must Retire After 15 Years Service as President.

New Haven, Oct. 8.—Henry C. Rowe, head of the H. C. Rowe Co., oyster planters and dealers, has issued a circular to the members of the Connecticut Oyster Growers' Association, which he has been president for fifteen years, declining renomination for the position and explaining his reasons. Mr. Rowe has been the chief soul of the association since it was formed and to his earnest and continuous interest and efforts are due much of its success as an organization and very much of what it has accomplished for the oyster growers of the State. Mr. Rowe's activities and interests are large and as he says in the circular, his connection with other organizations of a national character require all the time that he can give. But from his new location on the high ground of "Grotton bank" he can still keep an eye on Connecticut affairs and his interest in the State association will continue.

Cedar Hill Depot Starts Next Monday

Work on the construction of the new passenger depot for the New York, New Haven and Hartford railroad will start next Monday by Contractor William Paterson, who will have full charge of the construction. The building, which will be constructed in four months' time, will be built of terra cotta blocks and brick, its foundation being of concrete. A green tiled roof will cover the structure, which will have stone trimmings. Terra cotta partitions will divide the building for a ticket room, toilet, baggage and waiting room. The building will be heated by steam, with up to date plumbing and will be fitted with the latest electric globes.

"Purity" Coal a Product of Grade

The Archibald McNeil Sons Coal Company have announced that they will be exclusive handler of "Purity" coal, a Lehigh anthracite, which is especially excellent for use in the kitchen range or in the furnace. Its chief advantages are said to be its freedom from dirt, its uniform preparation and cleanliness and its intense heat making quality. This coal is mined by electricity, is automatically screened and is especially inspected before leaving the local yards. The price per ton will be the same as for ordinary Lehigh coals. The Archibald McNeil Sons Coal Company recommend this product and endorse it with their reputation for fair dealing with the public.

Trolley Line Assured Torrington Business Men

Torrington, Oct. 8.—At a meeting of the Torrington Business Men's association here last night, President E. J. Kelly announced that at a recent meeting between a committee of the associations and officials of the Connecticut company, the company was told that in the spring a trolley line would be built between this place and Thomaston. With the building of this road a through trolley service will have been established between Winsted and New Haven.

Fortune Teller Sued For Flimflamming Girl

Waterbury, Oct. 8.—Alleging that Annie Jogose took \$51 from her under the guise of telling her fortune, Marie Urban of the Brooklyn district has brought suit against Miss Jogose for the money, through Attorney Clayton L. Klein. Miss Urban claims that when she went to Miss Jogose to have her fortune read she foolishly exhibited her roll. Just how the money was taken, does not appear in the complaint, but it is understood the plaintiff makes claims of weird practices which completely overcame her, rendering her completely at the mercy of the alleged fortune teller. The defendant was taken into custody on a body writ, but furnished a bond and was released. Attorney Francis P. Guilfoile appears for the defendant.

CHARITIES BOARD MEETS

Lakeview Home is now fitted up with heating arrangements which are up-to-date in every respect and which will save the city about \$900 a year on coal, says President James Stone of the Board of Charities. The old boiler house, which had long since past their days of usefulness have been replaced by two new 50 h. p. boilers with all improvements. These are placed in a boiler house, made of cement block, a short distance from the home. The new boilers will be ready for use about Tuesday. The cost has not been over \$2,000. The board has not yet decided how to dispose of the old boilers. Superintendent Brennan reported at the meeting of the Board of Charities last night that Bridgeport had 164 inmates in the insane hospital at Middletown: 225 at Lakeview Home; 37 at the Bridgeport hospital; 26 at the school for imbeciles in Lakeville; 4 at the home for incurables. Bills ordered paid for last month amounted to \$11,197.04.

NOTED SOPRANO TO APPEAR HERE

Madame Sembrich to Sing at Jackson's Oct. 19

Under Auspices of Wednesday Afternoon Musical Club—How to Obtain Tickets.

One of the most notable musical offerings ever presented in this city will be held at Jackson's theatre on Tuesday evening, Oct. 19, when the greatest of all lyric sopranos, Mme. Marcella Sembrich will be heard in concert, under the guidance of the Wednesday Afternoon Musical Club. No local musical society has done so much to administer to the wants of music lovers of this city as has this popular organization, and they are to be congratulated on their progressive and enterprise exhibited in bringing to this city an attraction of such rare merit. Bridgeport has been very fortunate in being one of the comparatively few cities outside New York, Boston and Chicago that Mme. Sembrich's tour embraces in her farewell of America. It was only after repeated endeavor on the part of the committee and a deposit of an enormous cash guarantee that negotiations were consummated.

Instead of waiting until the voice and talents that made her queen of the lyric stage began to show signs of wear, Mme. Sembrich departed from the customary rule and elected to say adieu while her singing and acting powers were at their very pinnacle of development. Mme. Sembrich will have several assisting artists on this tour, Frank La Forge, the brilliant young pianist, well known through his playing on tour in former seasons with Mme. Sembrich, Mme. Galski and other famous singers; Francis Rogers, one of the most popular of American baritones, and a violinist. The marvelous beauty of Sembrich's voice has been a byword for nearly a quarter of a century, and yet to-day it rings as pure and true and rich and full as ever. Under her mistress' control as in the earlier days of her career.

The sale of seats for active members and subscribers to the Wednesday Afternoon Musical Club takes place on Tuesday, Oct. 12. Each active member and each subscriber will be given an identification card which, when presented at the box office on the morning of the sale will grant them the privilege of selecting seats. Only those persons holding this identification card can secure seats at the early sale. The sale of seats for the general public commences Thursday morning, Oct. 14. Any one desiring a subscribers ticket may secure same now by applying at Steinert's Music Store or of the following members of the club: Mrs. Chas. S. Cole, 836 Lafayette St., Mrs. Chas. R. Davis, 1519 Main St., Mrs. Henry L. Bishop, 695 Wood Ave., Miss Mary K. Cogswell, 574 Washington Ave.

ANNUAL MEETING OF CHILDREN'S AID SOCIETY.

The seventh annual meeting of the Children's Aid Society of this State will be held at the Newington Home at Hartford on Wednesday of next week beginning at 9 o'clock. The meeting will be given on the general work. From 10:30 to 12 the different homes will be visited, luncheon served at noon and a meeting at which reports will be read will come at 2 o'clock.

Mr. F. G. Fritz, Oneonta, N. Y., writes: "My little girl was benefited by taking Foley's Orino Laxative, and I think it is the best remedy for constipation and liver trouble. It is a pleasant and effective, and cures habitual constipation. F. B. Brill, local agent."
